IMPORTANT UPDATE | CHANGES TO THE NOTIFICATION PROCESS FOR COVID-19

Dear parents and guardians,

I hope you and your loved ones are doing well.

We wish to inform you that Ottawa Public Health has changed its notification process for COVID-19 in schools. You can read about it by consulting the following document ([follow the link](#)).

We also invite you to consult this document detailing instructions for high-risk contacts and their household members ([follow the link](#)).

Government Holiday Greetings

You can view this [holiday greeting video](#) from Stephen Lecce, the Minister of Education.

We understand that there have been many instructions over the past few weeks. The current environment requires a great deal of flexibility and patience. I would like to thank you again for your support and trust.

I wish you an excellent holiday season and hope that you will be able to take advantage of it to rest and fully recharge with your children.

Sylvie C.R. Tremblay
Director of Education
