Important update from Ontario's Chief Medical Officer of Health

Dear Parents and Guardians,

We hope you are well and enjoying the holiday season with your family.

Today, Ontario's Chief Medical Officer announced changes to the way the pandemic will be managed in the province. These changes will have an impact on how school boards and schools manage the pandemic after the holiday period. The Ministry of Education will be providing us with more specific guidance in the near future and we will share this with you during the week of January 3. At this time, the return to the classroom is scheduled for January 10, 2022.

Once again, we thank you for your cooperation and patience during this exceptional time.

We wish you a happy new year,

Sylvie C.R. Tremblay
Director of Education
