Important: Updates to the screening tools

Dear Parents/Guardians,

The Government of Ontario has recently updated the screening tools (children, adolescents and adults) to better reflect the changing symptoms of COVID-19. Please refer to the [following site for links](#) to the most up-to-date screening tools for your area.

Children, students and staff in schools and in child care facilities are required to complete the screening tool daily prior to visiting a CEPEO location. Parents of students in systemic and hybrid separate classes including programs at Le Transit are reminded that this is an important step.

Thank you for your cooperation and have a great weekend.

Sylvie C.R. Tremblay
Director of Education
